Yes, we received one response thus far; the private timber rep (OFIC) fired back immediately!

Hi David,

So glad you got this report out and I am curious as to whether you receive any responses or reactions...

Take care,

Jayne

Subject: Draft Report-Mid-Coast Basin TMDL stakeholder process

Dear Mid-Coast TMDL Stakeholders,

DEQ is pleased to transmit the attached Report "Mid-Coast TMDL Stakeholder Advisory Committee Re-Convening Assessment" for the Mid-Coast Basin total maximum daily load (TMDL) stakeholder process. The Report was prepared by Oregon Consensus (Final Draft November 10, 2011) and is based on information from interviews with the local and regional stakeholders identified in Appendix A. We will make the document available on our website in the near future, but wanted to ensure that the interviewees and their organizations, as well as interested members of the former MidCoast Technical Advisory Committee, received the Report.

Rather than using additional resources to refine this Report, the Project Team plans to take the information gathered and process recommendations to develop a detailed Advisory/Stakeholder Committee process design. That approach will be shared once a well-developed draft is available (target = early January), along with tentative schedules for re-convening the stakeholder process.

We appreciate your continued interest in this Project. Please contact me if you have any questions about the MidCoast TMDL stakeholder involvement process.

Sincerely,

R. David Waltz
TMDL Basin Coordinator
